## Custom Software Compatible Checks and Forms

### FormSource

Welcome to the most comprehensive source for your software compatible business documents. FormSource is easy to use and always up-to-date with an extensive library of pre-set software compatible formats; from payroll checks to invoices and statements, we've got your business document needs covered. To customize your documents, FormSource offers hundreds of design options for your specific needs.

#### Standard Options include choices of:

- 18 standard ink colors - all other ink colors are available upon request
- 18 check backgrounds
- Standard and up-grade security features
- 7 check borders
- 7 check warning borders
- 9 typestyles
- Custom and stock logo options

*All FormSource and FormSource Limited checks adhere to Check21 and ANSI x9.7 standards for image readiness.*

## Value Priced Software Compatible Checks

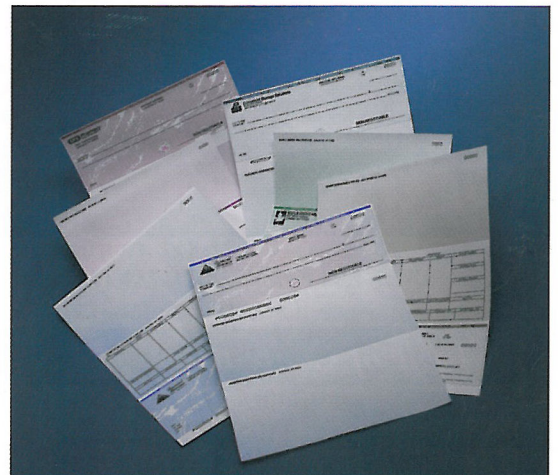

### FormSource LIMITED

FormSource Limited software compatible checks are a quality alternative to crash imprinted documents. Developed for cost-conscious customers who need short run quantities (between 250 - 5000), FormSource Limited allows for a professional image while maintaining the required printed and paper security features to deter fraud. FormSource Limited Software Compatible Checks deliver a two color look at an economical price.

#### FormSource Limited features:

- Six base color options plus 1 prismatic option
- Free logos (when camera ready art is provided)
- Two background pattern choices
- Variable information printed in black ink
- Nine security features (now includes thermochromic ink)
- Available in laser cut sheet formats (contact your local plant regarding continuous options)
- Can be ordered non-imprinted

*FormSource Limited has recently been updated with new standard security features and options.*

#### Background Choices

A Java applet will load. This may take a minute. If you do not see the applet please insure that you have Java version 6 loaded ([check here](#)) or download Java from Suns site by clicking [here](#).

You can browse your local file system by selecting the Browse button below. If you select a directory everything in the directory will be uploaded. If you wish to select individual files, select the desired files (using Ctrl A, the left mouse button, or the control key and the left mouse button) and then select upload.

You can also drag and drop the files from your windows explorer into the applet.

If your browser does not support Java click [here](#) to upload a zip file.

**Browse & Add Files**
